**MECHANICAL
CLUB VISIT
DOMINION ENG.**

Many Interesting Machines
in Operation

TURBINE UNITS

Machine Drills 175,000 Holes
in 36 in. Suction Roll

On Saturday a small party of Mechanical Club members visited the Dominion Engineering Works, Ltd., at Lachine. The Iron Foundry was first visited. Here a number of small castings were being poured, and some very large castings, sections of hydro-electric turbine rotors, were being cleaned and chipped and the cores were being broken out. The cores for some very large castings were being built up in the moulding pits.

A considerable amount of interesting work was to be seen on the floor of the Machine Shop, and although it was Saturday afternoon several of the large machines were in operation. The interest of the party centred mainly around the huge 35-inch Boring Mill where a large foundation ring cast in sections and bolted together, was being machined. A brand new Radial Drilling Machine, of English manufacture, was carefully inspected. This machine was driven by a directly connected electric motor, as are practically all the large machines in this shop.

By far the most impressive piece of work to be seen was the volute casing, completely assembled, for one of the 58,000 H.P. turbine units for the Hydro Electric Power Commission of Ontario, Queenston Development. These turbines will operate under 235 ft. head of water and are the most powerful units at present in operation. The motor of this turbine was in the process of being fitted into place inside the volute casing. Nearby a 15-ft. Larner-Johnson Valve for the same Development as being assembled. There was a certain amount of shafting, governor parts, vanes and valve stems, and other hydro-electric work in various stages of completion, and a small amount of paper machine work. Of the latter, the most interesting was a suction drill which was being machined in a multiple drilling machine. As this was a small roll, only about 5,000 holes have to be evenly spaced over a bronze shell, whereas some 175,000 holes had to be drilled and countersunk in the 36-in suction roll seen in these shops when the Mechanical Club visited the Dominion Engineering Works earlier in the season.

Before leaving the works the party visited the power house and the engine room. A course was then laid for the Pattern Shop, but as was half

**WRESTLERS

OF VARSITY**

Varsity Team Made Trip to
West Point

DIVIDED HONOURS

Results of Interest Because of
Forthcoming Intercollegiate Meet

In view of the forthcoming intercollegiate B. W. and P. meet which will be held at McGill this year the results of an excursion made by Varsity's boxers and wrestlers to West Point recently is of interest. Toronto won four out of seven glove contests. Only two of the wrestling contests were won by Varsity although one of the defeats was by default as Kohli was overweight for the 145 pound contest.

Goldie Gray, 125, and Les Black, 160, international intercollegiate champions for the past two years, both won their bouts, Gray gaining a technical knock-out over Andrews in the third round. Smith of the Army took terrific punishment from Black, who laced him repeatedly with a right to the heart, but he managed to stay on his feet. Bill Martin 146, a new man on the squad showed good form in his bout with the cadet team. Joe Hahon, heavyweight, took the heavyweight event from Ely decision. Hubbard, 118, Smute, 175, and Robertson, 135 lost their bouts by a shade. This is Robertson's first year on the team.

Lucas 125, and Jeckell 175, were the only wrestlers to win from the Army. Lucas, captain of the grapplers and intercollegiate champion last year, threw Matteson in five minutes and Jeckell, a new man named the decision over Gilmore. Stewart, 147 pound Canadian, Ontario and intercollegiate title-holder, was shaded by Barnett; both men never leaving their feet. Adams 135, and Dreyer 160, each lost on close decisions. Tholer was beaten by Schmidt in the heavy event, the Army man rowing the Varsity entry in five and a half minutes.

PRETTY THICK

The following was clipped from Smith College Weekly:

"Lost—A fountain pen and a pair of glasses in leather case. Please return to Helen Fogg, Haven House."

We have heard of London in Fog, but never before, Helen Fogg.

expected, it as closed for the week-end. The party then hurried to the tramway station to catch the next car to the city.

**OPEN FORUM
DISCUSSIONS
AT Y.M.C.A.**

To Consider the Fundamentals of Religion

QUESTIONS

Frank Discussion of Ever-present Problems

"What is the good of religion?" "Can we still pray?" "What can we know about God?"

While such questions are not, perhaps, asked every day on the campus, it is safe to say that in the minds of many McGill students of every faculty, questions like this are continually calling for solution.

It is a need of solving, or rather attempting to solve many vital questions of this nature that has led to the series of discussions which are being inaugurated at the Central Y. M. C. A. on Tuesday night next. This is what is known as an open forum and is to be held on Tuesday nights at 7:30 as follows:

Feb. 5—What is the good of Religion? Leader: Canon A. P. Shatford, D.C.L.

Feb. 12—What is the present position of the bible? Leader: Prof. W. H. Gifford, Th.D.

Feb. 19—What can we know about God? Leader: Rev. Alex. Kerr, B.D.

Feb. 26—What do we know about Jesus? Leader: Principal Jas. Smythe LL.D.

March 4—Does mankind need saving? If so, how? Leader: Prof. W. T. Waugh, B.D., M.A.

March 11—Can we still pray? Leader: Rev. Richard Roberts, D.D.

The Forum is for young men. It is being undertaken on the assumption that many of them are sincerely desirous of discovering the truth about religion and will welcome the opportunity of a straightforward approach to the problems of belief which have arisen in our modern world.

The Forum is not a series of addresses. Each speaker will introduce his subject, in as brief a way as possible; and the major part of the hour will be spent in the discussion of the various issues raised in the group.

It is not to be expected that all the difficulties treated in this way will be satisfactorily resolved. There must still remain mysteries which will not yield to our best efforts. This, however, can be promised that there will be no evasion by the speakers and that every honest question will receive an honest answer.

To the McGill men it is not to tell who these speakers are. Three of them are well-known church-men and the other three are McGill professors. (Continued on page 3)

**GLEE CLUB HAS
GOOD PROGRAMME**

Under Direction of Mr. Key
Prepare for Final Concert

The McGill University Glee Club is at present putting in a great deal of time and hard work in preparation for their final concert which will probably be given in the Convocation Hall of the Royal Victoria College on the evening of March the tenth. Mr. Harold Eustace Key the conductor of the chorus has been giving of his time and energy unsparingly to make the concert a success.

This year the Glee Club is the only University organization bringing the best music before McGill students and as such is deserving of all the support students can give it. Of the fairly large audience in attendance last concert there were not more than fifty students all of whom were greatly delighted. Many prominent people in musical circles in Montreal have not hesitated to comment on the excellence of the Club's programmes.

The Glee Club is first and foremost a musical organization and as such renders only the work of the very best composers. As a factor in the cultural life of the university, it occupies a very important place. For their final concert the chorus have been preparing some of the most famous of the English Glee, part-songs and madrigals. There are two of Shakespeare's songs set to music by Dunhill, and the programme also includes Sir Henry Newbolt's celebrated "Songs of the Fleet". With such a programme the chorus anticipates a much larger student attendance.

There is still room for new members and any interested in music at McGill are urged to turn out by the conductor and the club.

WHAT'S ON

TU-DAY

1.30 p.m.—R.V.C. Musical Club Executive in Room 12 R.V.C.

**FIRST WORK
ON THEATRE
NIGHT BEGUN**

Aim to Get Production Under Way at Once

SEEK QUALITY

"Abe" Skelley to Produce This Year's Show

Plans are now under way for the Second McGill Theatre Night to be held at some local playhouse the last week in March.

The huge success that attended the First Theatre night has set a high standard and this year's Committee has determined to attempt to better the performance.

The experience gained by those in charge of last year's dramatic triumph has been placed at the disposal of those who are undertaking the 1924 production.

In particular, "Abe" Skelley, the big figure in college theatricals, and to whom, in great measure, credit is due for the First Theatre Night, has consented to act as Producer of the production. (Continued on page 3)

**LECTURE BY
COUNT BYRON
DE PROROK**

Slides of the Ruins of Carthage

ARCHAEOLOGIST

At R.V.C. Convocation Hall Thursday Feb. 14th.

An event of more than usual interest to all McGill students will take place on the fourteenth of this month in Convocation Hall, Royal Victoria College, when Count Byron Khun de Prorok, the eminent archaeologist, will deliver a lecture on the recent discoveries in the ruins of Ancient Carthage. The lecture will be illustrated by a large number of splendid views of the ruins which the Count is showing on his present tour of America. He has undertaken the tour with the idea of arousing interest in the work which is at present almost at a standstill due to lack of funds for its continuance.

McGill University has always done her part in the matter of assisting archaeological research, and is at the present time a member of the Societies in Rome, Athens and Jerusalem; it is very probable that in the near future a donation will be made to a similar Society at Carthage.

Count de Prorok has been engaged in work of an archaeological nature for some years. During 1921-1922 he led the expedition which was sent out by the French Government, but was materially aided by the American residents of Paris, in order to discover whether or not there was anything of historical value to be found at Carthage. Regarding the success of the undertaking, Count de Prorok stated in an article that, "In the four different parts of the ancient site that we explored this winter, we discovered two Punic Temples, a Punic necropolis of 700 B. C., a Roman villa and an early Christian Basilica. Enough inscriptions, pottery, coins, lamps, iridescent glass jewelry, statues and mosaics remained under the surface of Carthage to fill several museums, and as France is unable to protect this artistic and historical patrimony, it is on the point of being lost forever."

The history of Carthage, both that which is legendary and that which is based on fact, is intensely interesting. Latin students remember the reference made in the first book of Vergil's Aeneid to the arrival of the hero, Aeneas, at the newly-built city of Queen Dido; he was amazed at the buildings which he found there, and at many other works of the Phoenicians. The huge theatre, which had been cut out of the side of a hill, also caused Aeneas some astonishment, while Vergil states that he marvelled at the paved streets, and at the din caused by the busy workmen. (Continued on page 3)

**DR. LAING WILL
ATTEND ARTS DINNER**

Tickets on Sale from Under-named for \$2.00

The Arts students will have the pleasure of banqueting with the graduates and their professors at the Annual dinner to be held on Wednesday, February the eleventh, in the Union.

The event is always very important on the Art calendar, and this year, those who were intimately connected with Dr. Laing, former Dean of the Faculty, will have the privilege of welcoming him back to the college, where his efforts were appreciated.

Sir Arthur Currie, Dr. Ira MacKay, Dr. Laing of Chicago University; Dr. A. S. Eve; Prof. W. T. Waugh, Prof. T. Matthews and a few of the students will propose and respond to a few short toasts.

Tickets are now on sale for \$2.00, and may be obtained from any of the following:—L. Sassenwein, Arts '24; A. E. Ross Arts '24; D. Everett Arts '25; G. Gorrie Arts '26; F. M. Gordon Arts '27; P. Morton Arts '27; G. W. Willard Arts '23; G. Van Valer Arts '23; W. Hatcher Diocesan College; A. R. Stone, Wesleyan College; W. P. MacPhail, Presbyterian College; E. B. Grullmen; Aurie Laing.

When a girl sends down to you the message that "she's not in," the best thing to do is to send her back one that "you haven't called."

—Princeton Tiger.

He—"And how's my girl to-day?" She (enthusiastically) "Just fine!" He—"How do you know?"

—Xale Record.

THE man with a university training has a great advantage in the race for success. There is one hazard however that is common to all. Life assurance enables you to disregard that hazard.

You can rest assured

THE VALUE OF TIME
It is not known at what precise period in the history of the human race man first awoke to the fact that mere existence had endowed him with a vast and priceless possession which was slowly but surely trickling away and becoming that much less with each passing moment minute, hour. It must, however, have been at a very early date, and a time many centuries prior to that historic but unknown day on which the first sundial was set up to shadow the sun's triumphant march across its face or the first water-clock marked a new era in man's miserly devotion to time.
In remote periods before the beginning of recorded history the men of the Stone Ages must have been impressed by the regularly recurring phenomena of sunrise and sunset marking the beginning and end of a certain definite period of time. But it was not we may be sure, until a much later date, and at a much more advanced stage of civilization that the real value of time began to be generally realized, and hoary graybeards, quavering a few shrill pipings, began to find a potent theme for their well-meant advice to the younger set in harping on the value of time. "A stitch in time saves nine" was originated at this period, and came to be a regular old wives' tale while Gaffer, sunning himself at the cottage door would agree with a wise nod of his shaggy old head as another stitch of his rheumatism assailed him. But Youth had already discovered the practical value of time, and looked with dismay at the fleeting passage of the precious hours, each one carrying away with it something fine and unique that would ere long inevitably reduce youth and strength to impotence. But Youth did not sit assiduously stitching in order to be able to save nine later on. The young Elizabethan and Caroline poets well expressed the attitude of the newcomer of all times when they enjoyed the virgins to make much of time: "Gather ye rosebuds while ye may, Old Time is still a flying."
But the people who prate so wisely nowadays of the value of time do not urge us to gather rosebuds while we may. Theirs is a sterner, colder creed befitting the great industrial age in which we live. "Time is money," they tell us, and they fuss and hurry and fume and fret and spend an enormous amount of energy in getting things done on time, very frequently getting a stiff neck from craning at the clock.
"Time is Money!" Ye Gods! Have we no other standard than the cheque book for the priceless possessions of us all? Do we want to set a price upon the sunshine or calculate the value of time in terms of dollars and cents? Time is priceless, not to be squandered or wasted. But it is a pertinent question whether the finest and most epicurean use to which time can be put is not in mere contemplation. To sit at peace and in quiet gently musing on the vast store of golden moments that are ours, letting them pass gently from us as our wrist watch ticks away, musing over them as a miser over his hoard—this, it seems to us, is to make the best use of time. And where can this be done so easily and so well as in a long, long lecture?
Our fingers are crossed, of course.

CONDENSED COMMENT
The week-end, in the realm of sport was a disastrous one for McGill, for the Red and White hockey and basketball squads suffered defeat at the hands of their Toronto Varsity opponents. As a result of Saturday night's game McGill and the basketball championship have parted company but we hope that the separation is not for long. There is no need to offer alibis. The Blue and White squad came across with a clean and decisive victory and by virtue of this has a strange hold on the title. We congratulate the Toronto men on their successes up to the present.
The hockey game was a pleasant surprise to many, for although the team did not register a win, they forced the champions to extend themselves to the limit and in one period the Red and White outplayed their opponents. The McGill men showed a remarkable improvement over the brand of hockey displayed in their last tilt with Varsity and the prospects for the remaining portion of the season are very good. There appears to be nothing between Toronto and another title, for the Blue and White has a great team and its representatives are worthy holders of the honours.
The Daily is publishing a series of articles on ski-ing by C. W. Barck, a well known follower of the sport. These articles constitute a voluntary contribution to this paper and we thank the donor for giving our readers a chance to further their knowledge about one of Canada's greatest winter pastimes.

A Bit Foggy
The old gentleman was lost in a London fog, so thick that he could scarcely see his hand before his face. He became seriously alarmed when he found himself in a slippy alley. Then he heard footsteps approaching. "Where am I going?" he asked anxiously.
A voice replied weirdly from the darkness: "Into the river. I've just come out."
Pursued Him
"How far do they trace their ancestry?"
"The grandfather, a bank director, all traces were lost!"

DOING HIS DUTY
"Ticket, sir," said an inspector at a railway terminus in the city to a gentleman who, having been a season-ticket holder for some time, believed his face was so well known that there was no need for him to show his ticket. "My face is my ticket," replied the gentleman, a little annoyed.
"Indeed!" said the inspector, rolling back his wristband and displaying a most powerful fist. "Well, my orders are to punch all tickets passing on to this platform!"
They traced as far as China, there all traces were lost!

NOTICES

Feb. 25th 5-6 Commerce vs Medicine
Feb. 27th 5-6 Dentistry vs Science

WRESTLERS
There will be a practice today at 5.00 p.m. at Strathcona Hall, and in addition there will be the following bouts:—110 lbs.—Kellie—Arts II—vs—Bernstein—Med. III 145 lbs.—Phelps—Arts I—vs—Kokoulski—Sc I—110 lbs.—Se IV—vs—Brown—Sc I. 147 lbs.—Fisher—Med III—vs—Mc Naughton—Arts II 160 lbs.—Mc Intyre—Sc I—vs—Briggs—Arts I.
These men must be at the Hall at 5.15 p.m. sharp, and any contestant not ready to wrestle when his bout is called, loses by default.

RADIO ASSOCIATION
The Radio Association will hold its weekly code practice in the Physics Building at 5 p.m. to-day.

GLEE CLUB
All members of the Glee Club are requested to be on time for the practice to-night at seven o'clock in Divinity Hall. The day for the concert is coming near and in the remaining nine practices a tremendous amount of work must be done. All singers in the University are especially urged to turn out and make the Glee Club the factor in university life it should be.

ARTS '25 HOCKEY
Will the following turn out to-day at 5 o'clock for a game with Law '25 Miller, Eddy Armstrong, Innes, Stewart, Blundell, Bennett, and Lloyd.

JUNIOR HOCKEY
Will the following report at Loyola rink 7.30 Abbott, Mickles, Eveleigh, Roncarilli, Cameron, Johnston, Boos, MacDonald Gordon.

HOCKEY PRACTICE
Intermediate and Senior teams practice tonight at Mount Royal Arena 6-7.

NOTICE
Junior and Inter B. Basketball practice at 5 o'clock Molsos. Mon. and Wed.

R. V. C. BASKETBALL
There will be a practice in Molsos's Hall on Tuesday Feb. 5th at 2 p.m. A match is taking place at the end of the week against Y. W. C. A.

ARTS '25
There will be an important class meeting of Arts '25 on Tuesday February 5th at 12 noon in the Arts Building. Room announced later.

SENIOR RUGBY PICTURE
The following men will please be at Notman's on Tuesday Feb 5th at 5 o'clock to have their picture taken. McGregor, Robinson, Little, C. Cope, Woodruff, Sturke, Manson, Amaron, Robertson, Anderson, Hughes, Hannah, Mickles, Philpotts, N. Gordon, D. Walsh, McGillis, D. Wilson, Fife, Baker, Dyer, Glascoe, Nonis, H. Murphy.

ARTS '25 BASKETBALL
All interested please turn out at the practice in Molsos's Hall, Tuesday at 4 p.m.

UNION HOUSE COMMITTEE
There will be a meeting of the Union House Committee Tuesday at 10 o'clock p.m.

ASTRONOMY
It is proposed in this course to give a strictly popular but accurate account in six lectures of the present position of knowledge in Astronomy. The lectures will be very fully illustrated by about one hundred lantern slides made at the greatest observatories of this continent, together with experiments, in addition to one or two motion picture films.
The following is an outline of the course:
Lecture I—The Earth and the Moon.
Lecture II—The Sun, Eclipses.
Lecture III—Planets, Comets and Meteoroids.
Lecture IV—Astronomical Instruments and Methods.
Lecture V—The Stars: Their Constitution, Arrangement in Space, and Motion.
Lecture VI—The Evolution of the Stellar Universe and Solar System.
Physics Building: Wednesday 6th. 8.00 p.m., commencing February 6th. Fee: \$4.00. Lecturer Professor A. H. S. Gillson.

PSYCHOLOGICAL SOCIETY
Prof. William McDougall of Harvard will lecture on "Psychology, Disarmament and Peace," at the R.V.C., on Friday, Feb. 8th, at 8.15 p.m.

SKI & SNOWSHOE CLUB
Badges of membership are now obtainable from members of the executive of the club. The different faculty representatives are:
Arts and Commerce, Geo. Grimmon, Com. '21; Science, Art, Gravel, '21; Medicine, Tom. '21 and Bob Wade; Law, Dan. '21.

WILL all persons expecting annual proofs or mounted prints call at the Annual Board-room at 5.00 p.m. (except Sat. or Sun.).
The photograph editor will be on hand with all photographs which have come up from Notman's.

HISTORICAL CLUB
The seventh meeting of the Historical Club will take place on Tuesday evening next, February 5th at eight o'clock at the residence of Hon. Lorne C. Webster, 7 Edgehill Road, Westmount, just above the Boulevard. Speakers: J. P. Bethel on "The Puritans in New England", and J. G. Brierley, "The Jesuits in New France". Members are asked to arrive on time as an early start will be made in order to allow more time for discussion.

MEDICAL SOCIETY
Sir Arthur Currie will address the Medical Undergraduates' Society meeting to-day, Feb. 4th, at 8.15 p.m., on the subject "Scene of Canada's Needs". Refreshments will be served.

MEDICAL CORPS TRAINING
A class for training in the first-aid and Ambulance work has been commenced by Major Pavey, D.S.O., C. A.M.C. It is open to medical students of McGill University, and owing to the date of commencement being in the middle of the session, entry this year is limited to men who have been already returned once as efficient. The medical training commences at once. Medical students who wish to take this training should attend at Craig Street Drill Hall, to-day, 4th February, at 8 p.m. report to Major Pavey.

JUNIOR & INTER B
Practices in Molsos Hall, Friday at 5.00 and Monday at 5.00 p.m.
Junior game vs. Engineers in Molsos Hall, Sat. at 8.00 p.m.
Inter B. game vs. Engineers Sat. at 9.00 o'clock at Molsos Hall.

SNOWSHOERS
The Snowshoers cross-country race is to be held to-day at 3 p.m. from the Stadium.

ARTILLERY TRAINING
Students of this University who wish to take up artillery training, (signalling, range-finding, shooting etc.) should attend at Craig Street Drill Hall, today, 4th February, at eight p.m. and report to Lieut R. E. Findlay.

ATHLETIC MANAGERS
Meeting of Athletic managers at McGill Union to-day, February 4th, at 5 p.m.
Will the managers please come prepared with recommended schedules for 1924-25, inventories, managerial organization and recommendations for succeeding managers.
D. S. Forbes, Athletic Manager.

DENTAL UNDERGRADS
There will be a meeting of the Dental Undergrads at the Assembly Hall in the New Medical Building at 7.45, Tuesday, Feb. 5. Dr. Rabinovitch will speak on "Our Diet."

UNION CAFETERIA
As an experiment the Cafeteria will be open all this week till midnight. If this innovation is successful, the service will be continued.

MEDICINE '23
Notice is hereby given that class fees are now overdue H. G. Henry is treasurer. Class pictures are on hand and the Committee would be pleased if they were called for immediately.

S.C.A. OF R.V.C.
A luncheon will be given at Strathcona Hall on Tuesday, Feb. 5th at one o'clock, in honor of Miss Helen Nichol of Toronto, who is to be in Montreal for a week. She will have some interesting messages for the S.C.A. and it is hoped that as many as possible will take this opportunity of meeting her.

R.V.C. MUSIC CLUB
There will be a meeting of the Executive to-day, Feb. 4, at 1.30 in Room 12.

INFRATERNITY HOCKEY
Credit for hockey will be given in the Department of Physical Education for students playing Infraternity hockey upon certification of the Manager. Hockey attendance sheets may be obtained from the Secretary at Molsos's Hall.

PHILOSOPHICAL SOCIETY
This society will meet at 8.15 p.m. on Tuesday Feb. 5th, in Strathcona Hall. Mr W. S. Kelloway will address the meeting on "Personal Ideals". All those interested are cordially invited to attend.

MCGILL ROWING CLUB
The Club are holding a dinner in the Grill Room of the Union on Wednesday, Feb. 6, at 6.15 p.m. Tickets are 75 cents each. All members are requested to bring friends. The dinner will be over in time to attend the hockey game.

FIRST DANCE HELD BY INK SPILLERS
News Hounds Held Successful Affair at the Union
On Saturday night at the Union Ball Room the Daily staff held the first dance ever held by the college news hounds. There were over thirty wielders of the mean pen with a like number of ink-spillers from the R. V. C. and the M. S. P. E. After a spirited time signing up partners the dancing started with a Paul Jones to warm things up. From then on the interest did not flag and the last strain of the home waltz ended the affair all too soon. The chaperones were Mr. and Mrs. Jenkins and Miss Edwards.
During the evening a group picture was taken by Penrod Scofield and "Sam of the Physics Building". The negatives from these pictures were brought to the Daily office last night and appear to be very good (and funny).
The refreshments were served. In the grill room, a number of "cubs" being pressed into service to accelerate the distribution of the fodder. The dance committee was composed of Walter Baden-Powell Potter and Arthur James McGill Smith and Miss Dorothea Hay.

FLUNKED FROSH WRITES TO DAD
Diplomatic Letter Should Serve as Model
The following letter received from a contributor should serve as a model for many that will be written home within the next few days. Several members of the freshman classes have been informed by their respective Deans that they could withdraw from the University, as a result of no mid-term exams. All these last needs write home to their parents.
Dear Dad:— In thinking over the alucn of a professional career during the last few weeks, I have come to the conclusion that after all there is a glut on the market of engineers.
How with a surplus of graduates in Canada, can a man after studying for four or five years hope to establish himself. After all one must have exceptional ability, and it is whispered amongst those who are in the know that one must have a tremendous amount of pull to get anywhere.
Again I feel that it would be asking too much of you and Mother to sacrifice anything else on my behalf. You have put me through the prep school and, at the age of 19, I feel at I should enter the business world and shift for myself. I cannot expect to be a drag on your resources for another four years. It is not quite fair.
Besides, I really think I'm far more able in the business side of life than in the professional. I am sure that I can procure a position at some clerical work, say book-keeping. I was always good at figuring; at about 15 or 16 dollars a week and it has been known that men starting as humble book-keepers have eventually become partners in the concern. The boss might even have a daughter, such things are not unheard of.
Yes, Dad, I have decided that I would much prefer a business career.
Your loving son,
Jim
P.S. I almost forgot I failed in my mid-term exams.
Jim
"K" '25.

THEOLOGY DEBATE
There will be a debate between Theology and Law on the subject, "Resolved that the Lawyer is more essential to modern society than the Minister." The debate to take place Thursday evening, February 7th.

ARTS DINNER
Tickets for the Arts Dinner are now on sale and are available from the following men:
L. Sessomio, Arts '24; A. S. Ross, Arts '24; D. Everett, Arts '25; G. Gorrie, Arts '26; F. M. Gordon, Arts '27; Morton, Arts '27; G. W. Willard.

VARSITY HOCKEY SQUAD DOWNS THE MCGILL SEXTETTE IN CLOSE GAME AT TORONTO ON SATURDAY

Score 4-2—"Jerry" Reid McGill Goalie Stars for Red and White—Glennie and McGerrigle Also Show up Well—Varsity Was Outclassed in Last Period but Rally Came Too Late—New Men Used on Both Teams—Greecy, Thompson and Westman Were Best for Toronto—Varsity Won Through Superior Combination.

Defeated, it is true, but putting up a brand of hockey that it has not shown before at any time this season, the McGill hockey squad held Varsity's great sextette to a 4-2 score, in the Toronto Arena Saturday afternoon. The Red and White team took the short end of the score but only after sixty minutes of terrific hockey. From bell to bell the McGill stickhandlers gave all they had, and the fact that it was not quite enough in no way discounts the gameness with which they fought. When the 7-1 beating which the Blue and White squad administered to the McGill sextette at the Montreal Arena is remembered, the followers of Manager Piddicombe's team can obtain some idea of the closeness of the struggle when playing on their opponents' ice with the shouts of Varsity supporters in their ears the McGill team held Varsity to a two goal lead. It seems to be becoming a habit with McGill hockey and rugby teams to start their seasons with severe defeats and steadily improve until by the end of the season they are at top-notch form but rather low in league standing. It is unfortunate that either through the wiles of the fickle goddess or some remediable defect in the teams themselves this upward movement might not occur before it is too late. However with regard to hockey, the season is by no means yet at an end. About a thousand fans viewed the contest, and showed an admirable spirit in graciously applauding every particularly good bit of work on the part of some McGill player or players. The Varsity C. O. T. C. band, high in one end of the rink, dispensed music in the intervals, and seemed to particularly desire to impress upon the listeners from Montreal their proficiency in giving "Alouette".

While the contest was close, hockey, in the stricter sense of the word, was at times a missing quantity. Although greater tendency was shown towards combination than at any time this year it often got no further than the attempt. Misses and wild passes occurred from time to time on both teams. Yet though these faults did appear, good hockey prevailed through most of the game and at times was brilliant enough to bring loud applause from a hockey critical Toronto audience.

Nor did McGill take a back seat in regard to the quality of hockey displayed. Though commencing in a rather disorganized manner they gradually improved until in the last period—traveling at fever heat even the Toronto scribbles admitted that the Montreal team outclassed the star Varsity six.

Perhaps the individual laurels should go to Jerry Reid, McGill goalie. Reid, a freshman at McGill, stepped into the breach caused by the injury to Morris, and has proved the find of the season. Under Coach Shaugnessy's care and the experience of some Senior Hockey games his game has been steadily improving and Saturday he well earned the hearty applause which the fans of the Queen City gave him. Although he still has a little to learn about clearing properly, and checking a tendency to come too far out of his goal Reid's work on Saturday in stopping what looked like sure goals at times bordered on the phenomenal. Several times when Westman, Hudson and Harris evaded the McGill defence Reid made some miraculous saves. Of the forty two shots which were peppered at him thirty nine were turned away. Dempsey accidentally batted one in to his own goal, and of the remaining three one was a beautiful shot from Westman which the McGill goalie had little chance to see. Thompson in the Varsity nets also gave a remarkable exhibition. The McGill sharp shooters were more accurate than the Blue and White and though only 28 shots were rained on the Varsity citadel the majority were dead on, and knee-high.

Of the forwards, Glennie and McGerrigle shared the linchpin. Glennie, though making a couple of costly errors in Saturday's game is a distinct asset to the squad and shows more form than perhaps any other man on the squad. Mac McGerrigle turned in the game of his career on the forward line and worked unceasingly from bell to bell. Both teams had new faces on their respective squads. Newlove and Taylor were drafted from Varsity Intermediates for a Senior trial and Wyse and Bobby Bell were given opportunity to show their wares with the Red and White. "Louie" Hudson did not show up with usual prominence for Varsity. Westman, though effective made a number of wild passes. Greecy seemed to eclipse both of the above mentioned Varsity performers. Harold Parlow handed out only three penalties—once to McLeod of Varsity for batting the puck and one each to Newlove and Dineen for tripping. Substitutes were freely used all through the game. McGill was slow to get going, but Glennie pierced the Varsity defence and drove a hot one at Thompson who made a wonderful save. Harris rushed, and circling the McGill goal failed to beat Reid who, on his knees, shoved the puck out. The race began to increase and Thompson saved after a pretty three man, McGill combination. Westman shot high and batted in a rebound off the back screen. Varsity 1—McGill 0.

Dempsey floured Hudson, who was about to shoot, with a stiff body check. McMahon saved in a scrimmage in front of the McGill goal and a moment later Reid stopped a hot one from Taylor who had no one to beat. Glennie passed back to centre ice and what looked like a sure goal was missed. Play frequently developed into narrow escapes in front of the McGill goal. Varsity is showing more combination and play is largely in McGill's end. First period ends, Varsity 1—McGill 0.

McLeod rushed at the opening of the second spasm but lost to Wyse whose shot was stopped. Hudson came to life and exhibited some splendid hockey. Loose play developed in the McGill defence. Hudson rushed and in the scrimmage that ensued Greecy shoved the rubber over the line. Taylor, after a nice effort failed to fool Reid. Westman made a wild pass back to centre. McGill again grew lax in front of the goal. Westman rifled a high one past Reid for the third tally of the game. Varsity 3—McGill 0.

McGill carried play to Varsity goal but after several narrow misses failed to beat Thompson. Bell missed his pass in front of the goal. Reid who had only the goalie to beat stopped McLeod's hot one and the McGill goalie a moment later got a great hand from the fans when he duplicated the feat with Hudson. Not to be outdone, Thompson stopped Glennie's beautiful lone rush. Varsity showing improved combination. Period ends, Varsity 3—McGill 0.

Two McGill shots hit the goal posts. Taylor upset Reid in goal, but Varsity failed to score. McGerrigle on a beautiful shot from the defence, bulged the twine for McGill's first counter Varsity 3—McGill 1.

Both teams were traveling at a feverish pace. In a mixup in front of the McGill goal Dempsey accidentally pushed the puck into his own goal. Varsity 4—McGill 1.

The pace was still furious, Reid playing a stellar game. Plaxton was hurt in the face in a fracas in front of the McGill goal but returned to play. Glennie shot a hot one after a nice rush. Thompson dropped the puck well inside his goal line and the goal judge raised his hand. After a conference with the goal judge, the referee pronounced it a goal. The game ended with both sides forcing the play.

The lineups were:—

McGill Goal Thompson
Reid Defence
Dempsey Centre
McMahon Centre
Glennie L. Wing Hudson
McGerrigle R. Wing Greecy
Dineen Subs Westman
McNaughton Subs Newlove
Wyse Subs Taylor
Bell Subs Plaxton
Cameron Subs Wright

JUMPS, RACES AND TESTS BY SKI MEMBERS

Jumps; Proficiency Test and Cross-country Race on Program
KEEN COMPETITION
Many Students Entered in Events

The members of the ski and snowshoe club were extremely active the end of last week; the jumping contest Friday afternoon; Saturday the ski proficiency tests; and a seven mile cross country race completing a full program for the season.

The jumps were held at the Montreal Ski Club's jump on Cote de Neiges hill. Due to a lack of soft snow the landing was in poor shape. Despite this fact the jumpers turned in a good exhibition and only one fall occurred. Each man was allowed three trials; the longest jump was 51 feet.

The winners were:—1st, P. Waite; 2nd, P. Knowlton; 3rd, H. Smith. This is a corrected report replacing that which appeared in Saturday's issue.

L. Lehan gave an exhibition of jumping in which he cleared 36 feet clearly showing his value as a jumper. The proficiency tests were held at p.m. Saturday on the slope by the crossroads on Mount Royal with Mr. G. W. Barch as judge. The snow was crusty and icy; far from ideal for such a contest. There were five tests in all; a left and right Christie; left and right Tellemark and an S turn.

Out of a maximum possible sixty points Olgyi Leslie won first place with 48 1-2; Leslie gave a very neat exhibition of maneuvering on skis; maintaining an equal, high standing in each test. Costigan followed a close second with 46 1-2; equalling Leslie's performance in four of the five events as to points. Webster came 3rd with 41 points. Sherrard who in past years has won these events fell; losing his chances to make a place as winner. The left turns were; on the average better done than the right turns.

Immediately after the close of the proficiency contest several men were obliged to hasten to the M. S. C. clubhouse to participate in the seven mile cross country ski race.

This race was held in conjunction with that of the Montreal Club; their officials recording the time of all runners. The McGill results however were kept separate. The fastest time was made by K. Oliver who did the course in 43 minutes 50 seconds; a member of the M. S. C. Bob Wade took first place among the McGill competitors with 50 mins. 11 secs. to his record. The time was very good; being very near the record for this race set in past years. Tom Brown made second place with 52 mins. 22 secs. followed by F. Rutherford third; time 55 mins. 19 secs.

The track was in very slippery condition due to the absence of soft snow. The going was very fast but dangerous; added to this the discomfort of a cold North wind and the difficulties of the race was evident.

To those interested in the activities of this club it will be of interest to know that membership badges are now obtainable from executive members.

Arts & Commerce, Geo. Grimeson Com. '23; Science, Art Gravel '24; Medicine, Tom Brown & Bob Wade; Law, Dunc Anderson.

The local activities for the club this week are to be concluded when the snowshoe race takes place at 3 p.m., starting at the stadium.

Very soon it is expected the executive will announce who is to make the trip to Dartmouth for the intercollegiate meet.

Resume of Results:

Jumping
1st, P. Waite.
2nd, P. Knowlton.
3rd, H. Smith.

Proficiency
1st, O. Leslie.
2nd, J. P. Costigan.
3rd, Webster.

Cross Country
1st, R. Wade.
2nd, T. Brown.
3rd, J. F. Rutherford.

UNION CAFETERIA TO REMAIN OPEN

Late Lunches Again This Week at Union

The Union Cafeteria will be open nights again this week. The experiment tried last week was so successful that the Union House Committee feels justified in continuing this service for another week.

It has been found that the late lunch hours, when the troops are not hurried, have a most useful part to play in giving them the chance to get better acquainted and discuss matters of common interest over Pierre's waffles and coffee.

Last Monday night the grill room was used but it was found to be inadequate for the number who turned out, so that since then the cafeteria has been used. If the patronage is continued, the cafeteria will be kept open.

BLUE AND WHITE VICTORY OVER MCGILL BASKETEERS IN HARD-FOUGHT BATTLE

Score 35-25 for Varsity—Superior Combination of Toronto Team Responsible for Success over Red and White Aggregation—Laydman and Potter Star for Varsity Five—Manson and Mendelsohn for McGill—Large Crowd Watches U. of T. Clinch Championship—McGill Team Offers no alibis.

In a thrilling court struggle in the Hart House Gymnasium on Saturday night Varsity took the long end of a 35-25 score and virtually clinched their claim to the Intercollegiate Basketball Championship. The Blue and White aggregation has only one more game to play and that with the Queen's team which they have easily defeated on a previous occasion.

The score fairly accurately indicated the margin of difference between the two teams. McGill weakened by the loss of Captain Amaron and playing in a strange court lacked just that all-round co-operation which the Blue and White five displayed and which alone accounted for their win. The Varsity five showed a smooth working offensive and a machine-like execution of their signals. Long practice by the five men who represented the Blue and White have given them an assurance and a capacity for team work that eliminated any desirability of using substitutes. Though at times erratic in their shooting the superior height of the Varsity forwards to that of the McGill guards gave them a distinct advantage in recovering rebounds.

The Red and White squad checked well and showed especial brilliance in the number of passes intercepted. Their shooting was also even slightly more accurate than that of Varsity but they were at times to lack the smoothness of combination which the Toronto team showed and were unable to get near enough to the basket. Substitutes were used freely in an endeavour to overcome this. Laydman, right forward for Varsity proved the biggest scorer of the game and contributed over half of the total score of his side. His shooting was accurate and he passed up few chances to score. "Biff" Potter with five baskets to his credit was the other scoring ace of the Varsity team.

For the Red and White, Mendelsohn proved the largest point getter with five baskets to his credit, two of them verging on the sensational. "Bozo" Manson with two points less came next in order of points scored. Four of the tall McGill centre's points being made on free shots. James scored a field goal during his short introduction to the game and Little, Quackenbush and Blumenstein were responsible for five points for their team via the free shot method.

One of the largest crowds which has ever witnessed a basketball game in Hart House cheered the players on. All seating room both in the gallery and downstairs was taken sometime before the commencement of the game.

Referee Ed. Buscombe of the Toronto Playgrounds staff gave an excellent exhibition of refereeing. He was liberal with his penalties and kept the game well in check without allowing it to drag.

Varsity commenced strongly when a few minutes after the whistle Laydman got two baskets in quick succession. On a free shot from a foul on Bell Mendelsohn scored McGill's first point. A moment later he accepted a pass and tallied his first basket. Potter on a pass scored for Varsity. Quackenbush missed on a foul on Potter. Manson dribbled down the centre of the floor and passed to Mendelsohn who tallied. Manson put McGill ahead by scoring twice on a double foul. Mendelsohn at this time was playing at top speed. Hutchinson was robbed of a basket when the sphere after rolling around the iron ring fell outwards. Mendelsohn looped a sensational basket from centre floor and was given a great hand by the spectators. Varsity at this time slumped and made several wild passes also missing several which were accurate. Laydman after a face-off scored from under the basket and a moment later Potter placed Varsity ahead which position the Blue and White five held for the remainder of the game. Laydman soon followed with a beautiful basket. McGill took time out. Hutchinson scored his first for Varsity. Manson just missed shooting the ball in from a face-off. Quackenbush, who had been checking well scored on two free throws. The first half ended Varsity 15—McGill 11.

Potter opened the second half with a neat basket on a pass from Hutchinson. Mendelsohn attempted and narrowly missed several long shots. Potter notched another. Blumenstein scored on a free shot. Manson successfully worked on two free shots. James counted his way up the floor and scored. Laydman retaliated after considerable juggling and wild shooting around the McGill basket. Capt. Caple scored a free shot from a foul on Manson. McGill slumped for several minutes. Laydman scored two in quick succession. Little tallied on a free shot and repeated a moment later. Potter and Laydman each added to their team's score. Varsity failed to score after several moles in front of the McGill basket and Manson securing looped one in from far out. The Red and White staged a

ancient site has been left, without any attempt at reconstruction. Much has been lost, however; the "Living Age" made the following statement some time ago, "Modern invaders carried off pillars and capitals for use in the great mosque at Kairouan; medieval Christians robbed the pagan temples to enrich the churches of Pisa and Genoa; and now, in our own days, the coming of modern European civilization to the shores of Africa has renewed the process. The Arab shepherds who until recently wandered in undisputed possession over the ancient city built no houses and consequently did not disturb the ruins. But modern contractors in their quest for material do not distinguish between quarried stones and loose stones of antique workmanship; and heavy carts so creaking out of the old capital laden with plunder for the construction of modern villas."

It is such losses that Count de Torok wishes to prevent, and in his lecture he will show how this can be done.

ENJOYABLE DINNER HELD BY R.V.C. '23

Many Out of Town Guests Present

FIRST REUNION

Graduates Give Accounts of Their Various Vocations

The Ritz-Carlton Hotel on Saturday night was the scene of the first Reunion of the class of R. V. C. '23, when thirty members of the class assembled at seven-thirty in the Vice-Regal Suite for dinner. Miss Slack acted as chairman and Miss Hurlbutt sat on her right as the guest of honour. Several out-of-town graduates were present—from St. John, N. B., Ottawa, Sherbrooke, and such well-known centres as Longueuil and Boreaux. The speeches which followed the dinner were of a very informal character. Miss Slack welcomed those who had come back to Montreal for the occasion and expressed satisfaction that so large a proportion of the graduates of 1923 were able to be present. Fifty-three members graduated from R. V. C. last May and of these thirty were present on Saturday night. They then read letters from Miss Jean Reynier and Miss Grace Beckwith expressing regret at their inability to attend and sending good wishes to the class. A letter was also read from some of the men of Arts '23 wishing every success to their fellow graduates and hoping that the reunion would prove very enjoyable. Miss Hurlbutt then spoke briefly, congratulating last year's graduating class on the enthusiasm they displayed. She alluded to the fact that next year would be the twenty-fifth anniversary of the opening of the college, and asked for suggestions for its celebration. Each girl was then called upon by the chairman to give an account of what she was doing. Some of the answers were very amusing; the most popular reply seemed to be "Trying to live on my salary." Occupations were varied. The majority had taken up teaching two were married, several were doing post-graduate work, one was testing materials for making bread, and one was in the Civil Service—in the Mines Department, which is the only one not mentioned in a rather complimentary manner by "MacLean's Magazine" discussion then followed on the subject of next year's Reunion. It was decided to give a dinner again and a committee consisting of Mrs. Abraham, Miss Fair, Miss Roy, and Miss Kerr, was elected. The class song of twenty-three and "Hail Alma Mater" were then sung and after about half-an-hour's informal talk "the meeting adjourned" as used to be said. Those present were:

Miss Hurlbutt, Mrs. Abraham, Mrs. Bunker, Misses J. Slack, L. Kerr, M. Pick, (Notre Dame de Grace) J. Wighton, D. Teed, E. Palmer, E. Patton, F. Banfill, (Sherbrooke) L. Evans, (St. John, N. B.), A. Noy, M. Fry, J. Foster, D. Paxton, K. Canning, E. M. Campbell, D. Hodge, M. Leggett, E. Shikman, M. McPhail, M. Leatty, A. Stewart, (Huntingdon) L. Campbell, E. Fitch, C. Ball, F. Perry, L. Fair, E. D. Campbell, D. Cross.

PROF. McDUGALL AT R.V.C. FRIDAY

"Psychology, Disarmament and Peace" Subject of Lecture to Psychology Club

Professor William McDougall of Harvard University will lecture on "Psychology, Disarmament and Peace" at the R.V.C. on Friday, Feb. 8, at 8.15 p.m.

The Psychological Society has provided many interesting programmes during the past term, and from all indications this one should be as successful as any of its predecessors. Much interest is being evinced in this subject on the campus, and during the past week a group of students met at Strathcona Hall to discuss this question.

It is hoped that there will be a large attendance. Admission is by tickets which may be procured from the Registrar, or from the Janitor of the Arts Building.

HISTORICAL CLUB MEETING TUESDAY

Discussion on Subject Pioneer Days in the New World

"Pioneer Days in the New World," is to be the subject of discussion at the seventh meeting of the Historical Club to be held at the residence of the Hon. Lorne C. Webster, 7 Edgemoor Road, Westmount, tomorrow evening, J. P. Bethel, Arts '24 will be the first speaker, and he will address the Club on "The Puritans in New England". He will speak with particular emphasis on the influence of the Puritan doctrines on the development of the American Colonies.

FOUR PRIZES TO MCGILL STUDENTS

Engineering Institute of Canada Announces Awards

The four student prizes offered annually by the Engineering Institute of Canada, have this year all been won by McGill men: W. H. Barnes, C. P. Reaper, J. P. Dunbar and G. M. Dick are the winners.

"The Acid Plant, its Functions and Operation in the Sulphite Mill" was the subject of the paper written by Barnes, a fourth year chemical engineering student. It has been graded as the best of the four efforts submitted. Reaper, a student in Civil Engineering, wrote on "Water Purification". His paper has been placed in the general civil section.

J. P. Dunbar who graduated with the class of '21 took as his topic, "Local Transportation on Rails". This paper is of both a mechanical and a railway nature. Dunbar is a junior member of the Engineering Institute of Canada.

"Holding Machinery", the essay submitted by G. M. Dick, a fourth year Mechanical Engineering student, may be placed in either the mining or mechanical sections, though it belongs more to the latter.

The papers were marked on the same basis as on an ordinary examination paper. The council of the Institute approved of the award of the four student prizes to those named in the report.

Mr. Francis B. Gordon was chairman of the examining committee.

RIFLE CLUB HELD IT'S FIRST SHOOT

Spoon Won by A. C. Lyons With 106

The first spoon shoot of the McGill Rifle Club for this season was held on Saturday afternoon when considerable excitement existed amongst the members for the winning of the coveted trophy.

Many good targets were shot and a decided improvement in the average score has shown since the beginning of the year. The first spoon this year was won by A. C. Lyons on a handicap score of 106.

Other good scores were made by: Moore, 105; Manville, 104; Yerxa, 104; Patton, 102; Wilson, 100; Hughson, 100.

The club is assured a busy season in the way of competitions and matches this year. On Tuesday night there will be a C.I.R.A. 303 gallery competition, while on Saturday the team is to represent McGill on a match with the Massachusetts Institute of Technology. Other competitions to take place in the near future include Oxford University, Yale University, Rutgers College, Dartmouth College, and the University of Alberta, besides four matches in the Canadian Intercollegiate Rifle Association.

Spoon shoots are held by the club from time to time on the handicap system which gives all members an equal chance to win these handsome awards.

MISS NICHOL TO BE GUEST AT LUNCHEON

Associate Secretary of S.C.M. Visits Montreal

Friends of Miss Helen Nichol, a recent McGill graduate, will be glad to learn that she is now in Montreal on a short visit. During her college course, Miss Nichol was a prominent S.C.M. group leader. After obtaining her M.A. degree and teaching for a short while, she left Montreal to become the Associate Secretary of the S.C.M. in Toronto, where she has led twelve discussion groups. A year ago, Miss Nichol was able to attend the R.V.C. Freshie Reception, and at Elgin House, students of the senior years became better acquainted with her. All R.V.C. students interested in the S.C.M. and in the Indianapolis Convention, which she attended, are cordially invited by the S. C. M. to a luncheon to be given in her honour, on Tuesday Feb. 5th, at one o'clock in Strathcona Hall. All those who know Miss Nichol will need no invitation. Later in the week, it is hoped that she will address the students in the R.V.C. Common Room.

Jas. A. Brerly, Arts '26 will deal with the Roman Catholic and Canadian aspect in his paper entitled "The Jesuits in New France". The Centenary of Frances Parkman was recently celebrated, and from this fact, this discussion should be of particular interest.

Active members are asked to make a point of attending this meeting, and a cordial invitation is also extended to the honorary members. A number of important items of business will also be discussed.

Kindly Intentioned

Miss Rouge—"I'm so sorry to hear of your motor accident."

Motor Friend—"Oh," thanks, it's nothing. I expect to live through many more."

Miss Rouge—"Oh, I hope not."

COMMERCIAL SOCIETY TO MEET AT UNION

Stock Exchange Will be Explained by Broker

Mr. Murray E. Williams of the firm of O'Brien and Williams, stock brokers, will address the Commercial Society in the Grill Room of the Union on Tuesday at 8.15 o'clock.

The meeting promises to be of especial interest and the Society is particularly fortunate in securing Mr. Williams as the speaker for the evening. He will explain thoroughly the workings of the stock exchange, and will exhibit specimens of various kinds of bonds. Not only does Mr. Williams speak from an intimate knowledge of his subject but he is noted as an extraordinary good speaker. The stock exchange is always of interest to Commercial students and Tuesday night's meeting promises to be on the same high standard as the others already held this season.

The agenda for the evening includes some important business. Refreshments of the usual high order will be served and a most enjoyable and instructive evening is anticipated.

KNOX CRESCENT CHOIR AT "SING"

Student Singing: Solos and Anthems Feature Entertainment

The weekly "Sing" held at Strathcona Hall last evening was very successful. The entire Choir of Knox Crescent Church had kindly consented to render some selections, and they kept their promise in a manner that was well received by an appreciative audience. Several hymns were sung by all present, and the singing was of a more lusty and cheerful manner than usual.

Mrs. Ewing and Mr. Jameison rendered solos and in response to the applause awarded the selection given by the Trio, consisting of Mrs. Ewing, Mrs. Griffiths, and Mr. Jameison, the whole Choir gave a beautiful Anthem.

The refreshments were of the usual high order, and contributed largely towards the evening success. It is regrettable that the audience was so small, and it is hoped that as a very attractive programme has been arranged for the next two months, the audiences in the future will be larger.

Much of the credit for the success of the "Sing" goes to Elmer McLeod who conducted it.

SKI-ING

A series of articles on ski-ing will be published in the McGill Daily, written by the well known exponent on ski-ing, Mr. G. W. Barck.

It will be recalled that Mr. Barck acted as judge for the International Intercollegiate Championships held in Montreal last year, and on several other occasions has rendered assistance to our skiers.

The first article will give a brief history of ski-ing, following with ski-ing equipment, etc.

HISTORY OF SKI-ING

Skis are known to have been used in Central Asia long before the Christian era.

The Finns, originating from the Finno-Ugric race, used the ski (or an implement resembling the present ski) in the migrations westward to the present Finland.

The Lapps then inhabiting Finland learned the use of the ski and spread the knowledge to the North and West into Sweden and Norway, and in a short time the idea was spread over the whole Scandinavian peninsula.

Skis were found extremely useful, and for centuries were used as the only means of travel in winter time. As far back as the 16th Century skis were used by the Swedish Army and in 1639 were taken down to Germany when the Swedes entered the Thirty Years' War. This is supposed to be the first time skis were used in Central Europe, but were not taken up seriously until later years when skiing competitions were held and since have proved popular throughout Europe. There are two distinct types of skis made. One is the Telemark, which is wider at the toe and heel than at the middle. It was designed to suit hilly country where quick turning often is necessary. This type of ski has been adopted as the standard of the world.

The other style is called the Finnish (having been developed in Finland) or straight side ski. This ski is usually 18" to 21" longer than the Telemark, is narrower and the sides are parallel giving the skier greater speed in cross-country running.

Skis were introduced in U. S. A. and Canada in the early eighties by Scandinavians and since then the interest in the sport has increased very rapidly from Coast to Coast, until today we have scores of ski-clubs in both countries.

Several native Canadians have mastered the sport and today compare favourably with the Scandinavian experts in all branches of ski-ing activities.

(A second article by Mr. Barck on "Ski Equipment" will appear shortly.)

MEDICAL SOCIETY MEETING TO-NIGHT

The Principal Will Diagnose Canada's Condition

Sir Arthur Currie will speak to Medical Undergraduate Society on the subject "Some of Canada's Meds" this evening at 8.15 in the Assembly Bldg. From a man of his experience and prominence and on such a topic, the Principal's address should be of the greatest interest.

This year the executive of the Medical Society has followed the policy of having addresses by prominent men on the Faculty. It has been found that this practice has made the meetings of greater interest to men of the lower years with consequent greater attendance. It is hoped that a large attendance will greet Sir Arthur in his visit to the Society.

At this time when the countries of the world are recovering from the effects of the War, Canada is in a more fortunate position than most other countries. Yet there are greater problems to be faced, much constructive work to be done, and national debts to be cleared away. Sir Arthur has shown himself to be a man of broad vision and clear thinking. His utterances are always listened to with respect.

Refreshments will be served.

FRANK READS PAPER AT MACCAB'EAN CIRCLE

Exhaustive Work on "The Prophets"

Yesterday afternoon at the Union the Maccabean Circle held its first meeting since the Christmas holidays. After the business concerning the Circle's annual drama which will be held at the Ritz-Carlton Hotel, a piano solo was rendered by Jack Bonavitsky, Ph.D., '25.

M. Frank, Law '23 read an exhaustive paper on "The Prophets", which was a modern interpretation of the Prophets of Israel and their work. He called them "the founders of ethics and monotheism; great poets, thinkers and leaders." He showed how they instilled Monotheism by making Jehovah a warlike and jealous god. At first this deity was merely a national god, but through their efforts he became the one true creator of the universe. The prophet mainly responsible for this was Elijah due to his vision.

Mr. Frank's paper evidenced deep thought and research ability. He has written a piece that required many months of painstaking application.

Rabbi Berger who was to speak on "The Contents of Judaism" was unable to do so. The Maccabean Circle will have the pleasure of hearing him in the near future.

THEOLOGICAL SOCIETY LAW'S CHALLENGE

Subject the Relative Merits of Each Calling

It has just been officially announced that the local Theological Society has accepted the challenge issued by the Law students a few days ago to an interfaculty debate on the subject: "Resolved that the Lawyer is more essential to modern Society than the Minister." This is the correct form of the proposition to be debated. The "Lit" received the suggestion of this subject from Law a short time ago, and passed it on to the Theologues for their consideration. There was some discussion, at first among the latter as to whether the subject was a debatable one and as to whether the discussion might not result in the more fitting of one excellent class of men against those of another profession. However, as the proposition had been made in good faith it was decided to accept it as such and to inform the "Lit" officials of the decision.

As regards the names of those representing Theology in the Debate it has become definitely known that Amaron and Cousins both of the Presbyterian College will be two members of the team. It is further understood that the third member will be one of the men of the Wesleyan College. This, however, will be settled early this morning.

The Debate will be held on Thursday evening.

"What do you call a man who plays the saxophone?"

"Don't call him anything. Words fail."

"That's a tactful waitress. Yesterday she said to me as I was leaving: 'Please remind me tomorrow that you didn't pay your bill today.'"

Der Brumme (Berlin)

"Dinah, I hear you are going to get married?"

"Yes; ah don't you? me a nice steady man."

"Has he a good job?"

"No'm, not now, exactly—but he's fixin' to study for the ministry. Ah's gwine support him till he reads de Bible throo."

EXTENSION COURSE IN ASTRONOMY

Professor Gillson to Deliver a Series of Six Lectures

Commencing February 6th, a series of six lectures on Astronomy is to be delivered by Professor A. H. S. Gillson, in the Physics Building. This course of lectures is to take the form of an extension course and a fee of \$5.00 is to be charged. It is proposed in this course to give a strictly popular but accurate account of the present position of knowledge in Astronomy and should be of interest to many, as few people are well acquainted with this subject. Prof. Gillson is particularly well fitted as a lecturer in this subject as he has written several books on Astronomy. The lectures will be fully illustrated by about one hundred lantern slides made at the greatest observatories on this continent, together with experiments in addition to one or two motion picture films.

The lectures are to be held every Wednesday at 8.00 p.m., commencing February 6th in the amphitheatre of the Physics Building.

The following is an outline of the course:

- Lecture I—The Earth and the Moon.
- Lecture II—The Sun and Planets.
- Lecture III—Planets, Comets, and Meteors.
- Lecture IV—Astronomical Instruments and Methods.
- Lecture V—The Stars: Their Constitution, Arrangement in Space and Motion.
- Lecture VI—The Evolution of the Stellar Universe and the Solar System.

ENGINEERS DEFEAT INTERMEDIATE B's

City League Basketball on Saturday at Molson Hall

On Saturday night in Molson Hall, the Intermediate B. Basketball team went down to defeat before the Engineers to the tune of 33-15. Fast basketball was the order of the evening but their opponents surprised McGill in shooting. For the losers Spitzer and Granits starred.

Mr. Seaman handled the game in a capable manner.

The McGill Juniors defaulted a scheduled game to the Engineer Juniors at the same place.

Events at McGill This Week

The following is a tentative schedule of events at McGill this week. It is impossible to make it complete and its accuracy cannot be guaranteed.

DATE	DAY	HOUR	PLACE	ROOM	EVENT
February 4...	Monday		Lyola		Hockey; Junior McGill Vs. Victorias
February 5...	Tuesday		Lyola		Hockey; Intermediate; M.A.A.A. Vs. McGill
February 5...	Tuesday		High School	Range	Rifle Club—303
February 5...	Tuesday	8.15 P. M.	Union	Grill	Commercial Society; Speaker: Mr. Williams Subject: "The Stock Exchange."
February 5...	Tuesday	7.45 P. M.	Med. Bldg.	Assembly Hall	Dental Undergraduate Society
February 6...	Wednesday				Intercollegiate Hockey; Senior; McGill at University of Montreal
February 6...	Wednesday	6.15 P. M.	Union	Grill	Rowing Club Dinner
February 7...	Thursday		Dartmouth		Ski & Snowshoe—Dartmouth Winter Carnival
February 7...	Thursday				City Hockey; St. Lambert Vs. McGill
February 7...	Thursday	5.00 P. M.	Union	Cafeteria	Jazz Tea; Adney's Orchestra
February 7...	Thursday	8.00 P. M.	Union	Ball Room	Literary Debating Society; Theology Vs. Law
February 8...	Friday	8.00 P. M.	Union	Ball Room	College B.W. & F. Meet
February 8...	Friday				Basketball; McGill at Ottawa
February 8...	Friday				Dartmouth Winter Carnival
February 8...	Friday				Intermediate A. Basketball; McGill at Rosemount
February 8...	Friday				Intercollegiate Swing U. of T. at McGill
February 9...	Saturday				C. & D. Basketball; Intermediate A. McGill at Argonauts
February 9...	Saturday				C. & D. Basketball Intermediate B. M.A.A.A. at McGill
February 9...	Saturday				Intercollegiate Water Polo U. of T. at McGill
February 9...	Saturday				Rifle Club; M.I.T. at McGill
February 9...	Saturday	8.00 P. M.	Union	Ball Room	College B.W. & F. Meet

NOT ALONE IN THE OPINION

She—Are you taking part in the amateur theatricals this year?
He—no, I'm not. I always think I'm making a fool of myself.
She (trying to say the right thing).—Oh, everybody thinks that.

Soothsayer—Your future husband is young and handsome. He comes from a Southern land. He is rich and holds a high position. You will be very happy.
Client—Isn't that just splendid! But how shall I get rid of my present husband?

OLD CHUM SMOKING TOBACCO IS FOUR TIMES SEALED

to bring you the full richness and mellow sweetness of this—

"Tobacco of Quality"
